

CESM Societal Dimensions Working Group Meeting
27 – 28 February 2012
National Center for Atmospheric Research – Boulder, Colorado
Mesa Lab – Main Seminar Room

MONDAY, 27 February

Introduction and overview

- 1:30 [Marika Holland](#) – CESM and it's working group structure
2:00 [Lawrence Buja](#) – The Societal Dimensions Working Group

State of the science

- 2:15 [David Behar](#) – Water and interactions with ESMs
2:45 [D. van Vuuren](#) – Types of linkages between IAMs and ESMs

Breakout groups

- 3:45 Laurna Kaatz – Water: Data needs for the water utility sector
Brian O'Neill – IAM/Land: Possible land-climate research activities
4:00 General discussion

Plenary

- 5:15 Reports to plenary

TUESDAY, 28 February

Breakout groups

- 8:45 Breakout groups: Direction setting
Water: Future directions / CSL priorities
IAM / Land: Future directions / CSL priorities
9:00 General discussion in breakouts

Plenary

- 10:30 Reports to plenary by Lead + Rap
11:15 Next steps (future meetings, steps to Breckenridge, funding possibilities, relationship to other relevant community activities, funding)
12:30 Co-Chairs + volunteers prepare "Overview of SDWG" to be presented at 1:30

Joint Session with Land Model/Biogeochemistry/Chemistry Climate Working Groups

- 1:30 Overview of SDWG
1:50 [Current / planned activities in Land Model Working Group](#)
2:10 [Current / planned activities in Biogeochemistry Working Group](#)
2:30 [Current / planned activities in Chemistry Climate Working Group](#)
3:15 General Discussion
4:45 Wrap-up: Summary of discussion and path forward
