

Final Discussion

- Vertical resolution choices
 - L32->no QBO; L46->QBO; L70->WACCM-SC
- High resolution: Do we need to make plans?
- Regional refinement plans
- CAPT case studies
- Revamping and adding diagnostics

Requests

- Other candidate improvements for May 15
- Other analyses of the simulations

- Integrate cam5.4 asap, if minor differences turn on
- Stick with clm4.0 for now. Change in June?
- Plans for evaluating CAM at very high resolution
- Testing new physics at high resolution
- 0.25 deg has to be with 1 deg ocean (resources)
