

26th Annual CESM Workshop ALTERNATIVE EARTHS CROSS-WORKING GROUP MEETING

Thursday, June 17

** All times are Mountain Time*

Time	Topic / Title	Speaker
13:00	Welcome and logistics	Dan Marsh
13:05	Low cloud feedback stabilized Earth's long term climate (Invited)	Colin Goldblatt
13:20	The Climates of Other Worlds: Using CESM to Explore the Habitability of Extrasolar Planets (Invited)	Aomawa Shields
13:35	Viewing the Earth and its exoplanet analogues through time	Greg Cooke
13:45	Using CAMs: CCSM: and CESM for Exoplanet Climate Simulations	Jun Yang
13:55	Climate on High Obliquity Planets and Some Potential Observable Consequences	Wanying Kang
14:05	Inter-model Comparisons for Exoplanets	Thomas Fauchez
14:15	Understanding the Habitability and Observability of Exoplanets using WACCM	Howard Chen
14:25	ExoCAM: An extension to CESM1.2.1 for simulating exoplanet atmospheres.	Eric Wolff
14:35	Discussion	
15:00	Adjourn
