

CCSM Paleoclimate Working Group Session
Tuesday, 16 June 2009
The Village – Tarn Room – Breckenridge, Colorado

Webcast Instructions and Information: <http://www.ccsm.ucar.edu/webcasts/>

- 8:30 a.m. Christine Shields – NCAR
Updates to the CCSM3 Late Ordovician Simulations: CO₂ Sensitivity and Implications for Glaciation
- 8:50 a.m. Arne Winguth – University of Texas
Response of Early Eocene Climate to Greenhouse Gas Forcing – A Model Study with CCSM3
- 9:10 a.m. Cecilia Bitz – University of Washington
North Atlantic Climate Variability at LGM, 14k, and Present Day
- 9:30 a.m. Esther Brady – NCAR
Ocean Freshwater Transport in the LGM Freshening Experiments
- 9:50 a.m. Zhengyu Liu – University of Wisconsin
Transient Climate Evolution of the Last 21000 Years: Update
- 10:10 a.m. Synte Peacock – NCAR
Isotopes in the Glacial Ocean
- 10:30 a.m. Break
- 11:00 a.m. Caspar Ammann – NCAR
New Implementations of Natural Forcing in CCSM4
- 11:20 a.m. Robert Oglesby – University of Nebraska
Role of North Atlantic SST on Persistent Drought in North America
- 11:40 a.m. Discussion
- 12:00 p.m. Adjourn
