

**CCSM Climate Variability Working Group Meeting  
AGENDA**

*J. Hurrell and M. Alexander, Co-Chairs*

**The Village at Breckenridge, Ten Mile Room  
Tuesday, 24 June 2003  
1:00PM – 5:00 PM**

- 1:00pm – 2:00pm     **JOINT SESSION WITH POLAR CLIMATE WORKING GROUP (Ten Mile Room)**
- 1:00pm – 1:20pm     An Appraisal of Storm Track Depictions in CCSM and CAM (R. Cullather)
- 1:20pm – 1:40pm     Antarctic Sea Ice Variability in the CCSM2 Control Simulation (M. Holland)
- 1:40pm – 2:00pm     Climate Sensitivity (A. Hall)
- 2:00pm – 5:00pm     **Climate Variability Working Group Meeting (Ten Mile Room)**
- CLIMATE SENSITIVITY** (continued)
- 2:00pm – 2:20pm     The Effect of Climate Sensitivity on the Response to Volcanic Forcing (T. M. L. Wigley, C. Ammann, B. D. Santer, and S. C. B. Raper)
- 2:20pm – 2:40pm     Comparing the Greenhouse Sensitivities of CCM3 and ECHAM 4.5 (E. Schneider and B. Cash)
- 2:40pm – 3:00pm     Climate Sensitivity of CCM3 to Horizontal Resolution and Interannual Variability of Simulated Tropical Cyclones (J. Tsutsui, K. Nishizawa, H. Kitabata, and Y. Yoshida)
- 3:00pm – 3:20pm     **Break (Atrium)**
- TROPICAL BIASES**
- 3:20pm – 3:40pm     Exploration of Causes and Effects of Some CCSM Biases (G. Danabasoglu and W. Large)
- 3:40pm – 4:00pm     Tropical Biases in Coupled and Uncoupled Simulations with the NSIPP Models (M. Suarez)

- 4:00pm – 4:20pm Tropical Pacific Climate Variability in the GFDL Coupled Model  
(A. Wittenberg, T. Rosati, and I. Held)
- 4:20pm – 4:40pm Cross Coupling Experiments (B. Kirtman)
- 4:40pm – 5:00pm Understanding the Causes for the Cold Biases in the Equatorial  
Pacific in the NCAR CCSM: A Systems Approach (D. Sun)
- 5:00pm – 6:30pm Reception and Poster Session (**Atrium and Forest Room**)
