

Community Climate System Model

Sixth Annual CCSM Workshop
Breckenridge, Colorado
26 to 28 June 2001

CCSM Climate Variability Working Group Meeting

Thursday, 28 June 2001, 11:00 am - 3:00 pm
Ten Mile Room, The Village at Breckenridge

AGENDA

Edwin Schneider and James Hurrell, Co-Chairs

11:30 am	External Forcing and 20th-Century Climate in CSM	Caspar Amman
11:43 am	A Web Based Program to View and Analyze CCM3 Climate Output	Cathy Smith
11:56 am	Diurnal Variability in CCSM	Aiguo Dai
12:09 am	A Comparison of CCM3 and TRMM Precipitation	Craig Collier
12:22 pm	Effects of the Jet Stream Waveguide in CCM3	Grant Branstator
12:35 pm	The Relationship Between Sea Ice and the Large-Scale Circulation in the Southern Hemisphere	Marilyn Raphael
12:48 pm	The Atmospheric Response to Arctic Sea Ice Anomalies	Mike Alexander
1:01 pm	A CCM3 Study of Deforestation Induced Climate Change in Africa	Fredrick Semazzi
1:14 pm	Thermocline Variability in the Tropical Pacific	Antonietta Capotondi
1:27 pm	The Influence of Tropical Pacific and Atlantic SSTs on Amazon Rainfall	Rong Fu
1:40 pm	Assessing the Potential Predictability Associated with Tropical Atlantic SST Anomalies	R. Saravanan
1:53 pm	An Examination of the Sensitivity of a GCM to a Coupled and Uncoupled Mode	Jan Hnilo
2:06 pm	Seasonal-to-Interannual Coupled Retrospective Predictions Using CCM3/MOM3	Ed Schneider
2:19 pm	Solar Variability and Climate System Response in Ensemble Simulations of 20th Century Climate	Jerry Meehl
2:32 pm	Multidecadal Climate Variability in CCSM	Qi Hu
2:45 pm	Plenary Discussion	
3:00 pm	Adjourn
